

BIOGRAPHY

ONE LOVE HI PAWA

One Love Hi Pawa is the first reggae sound system ever born in Italy, and after so many years it's still the number one sound.

The crew of these selectors used to work together since the end of the eighties/early nineties hosting radio programs and dancehall and promoting concerts with international artist.

In 1992 they produced a demotape that sold more than 5.000 copies and it helped to spread their name around.

They had still a dream. To build their own set, following the jamaican tradition. After years of hard work, their dream became reality when they finished to build their own sound and they kept the first dance with their equipment in december 1993.

From now on **One Love Sound** toured continually all over Italy, and in a while, it became an international sound, touring Germany, Austria, England, Holland and Switzerland.

One Love is one of the few european sound to have already performed in the place where everything started, in Kingston, Jamaica.

One Love Hi Pawa also performed alongside big international sound like David Rodigan, Stone Love, Killamanjaro, Bass Odyssey, Youthman Promotion, Metromedia, Caveman, King Tubby , Ricky Trooper and Pow Pow , just to name the most famous ones.

In 1996 the same crew opened a records shop specialised in reggae music, called "One Love Music Corner" and in 1998 they have set up a company called "One Love International Distributor" in Kingston Jamaica from where they distribute jamaican music worldwide.

From 1997 they also have a records label , "One Love Records".

Finally, **One Love Hi Pawa** has performed two consecutive times at Fully Loaded in Jamaica (2002 and 2003) and at World Clash 2003 in New York.
